

Floragard Floratorf

Field of application:

Naturally pure quality peat without any additives. Stores water, nutrients and soil warmth, it protects against incrustation and dehydration. Supports the biological activity of the soil and stimulates the formation of humus.

Characteristics (at the moment of production):

Recipe: 105433

pH-value (CaCl ₂)	3,5
salinity (H ₂ O) g/l	< 0,2
nitrogen N (CaCl ₂) mg/l	< 50
phosphate P ₂ O ₅ (CAL) mg/l	< 50
potassium (K ₂ O) mg/l	< 50
grain size (mm)	0 - 40

- Peat free
- Organic
- Peat reduced

Intendend Purpose / Application:

This natural product loosens the soil and provides a good air circulation. Suitable for overwinter survival of bulbs and root vegetables and as litter for small animals.

White peat

The product should be stored in a dry and cool place and protected against direct sunlight. Our advice would be to use up the product as soon as possible. When stored for a longer period of time, the product should be analyzed before it is used. The raw materials and additives that are used for the product conform to the regulation (EG) No. 834/2007 regarding the ecological/organic production with its regulation (EG) No. 889/2008 for the implementation. If questions occur, please get in touch with your contact person or the technical department of horticulture at Floragard (Tel. +49 441 2092-0).
