

Florigard Garden Peat Moss

Field of application:

Excellent mixture of slightly to strongly decomposed high-quality peat. Perfectly suitable as soil conditioner in ornamental or fruit and vegetable gardens.

Characteristics (at the moment of production):

Recipe: 101378

total nitrogen (N) %	0,68
pH-value (CaCl ₂)	3,5
organic matter (mass.-% fresh matter)	36

- Peat free
- Organic
- Peat reduced

Intendend Purpose / Application:

Premium peat provides the soil with an excellent water-holding capacity. Protects against frost and prevents incrustation of the soil surface. Loosens the soil and provides long-lasting water, thermal and air circulation.

White peat

Black peat

The product should be stored in a dry and cool place and protected against direct sunlight. Our advice would be to use up the product as soon as possible. When stored for a longer period of time, the product should be analyzed before it is used. If questions occur, please get in touch with your contact person or the technical department of horticulture at Florigard (Tel. +49 441 2092-0).
